COMFORT INDICATOR OF CHARGE LIGHTER PLUG - 56-870

Code: **MAA02XXXX0013**

This innovative connector series COMFORT (usable only on batteries to 12 volts) is equipped with an indicator of the state of charge to always have an eye on the level of your battery. Through its LED RED (Recharge immediately!), ORANGE (Recharge as soon as possible) and GREEN (Battery Charge) informs the user about the status of the battery to which it is connected, thus giving the opportunity to speak with proper charging before deep discharge can cause irreversible damage. Comfort Indicator Lighter is an accessory designed to work with any accessory 12V cigarette lighter socket.
