

CAR / TRUCK > CAR / TRUCK - STARTERS EMERGENCY (I-STARTER)

I-STARTER 6.0

Code: **MAA02XXXX0094**

A modern semi-professional emergency starter of great power, usable on all cars and commercial vehicles with 12V electrical system. Equipped with powerful Lithium-Iron-Phosphate batteries (lifepo4), the technology now considered safer and more reliable. Numerous safety functions protect batteries and vehicle control units from possible user errors. The reduced dimensions and weight allow the transport on board of the car or van and ready use in case of need.

Contents of the kit:

Main unit, with integrated starter cables.

USB-C charging cable

Quick Charge 3.0 charger

A Europ Assistance roadside assistance policy valid for two years on roads and motorways throughout Europe is provided, to be used in case of battery failure.

Device not suitable for intensive and prolonged use.

TOSI SNC
