CAR / TRUCK > AUTO / AUTOCARRO - LIFTERS

LIFT BOTTLE 2 TON

Code: **MOF01XXXI0012**

The hydraulic bottle lifts are used in all situations that require a great pushing force in reduced spaces. They are also used for lifting and stamping machinery and construction cranes, and can also work horizontally as a tool for pushing and positioning. The safety valve prevents any overload, and high-quality heat treatments guarantee a professional use over time.
