

BALANCER SEC 3.2

Code: **AEQ01XSXX0070**

The SEC 3.2 is an entry level wheel balancer equipped with MONITOR, with high performance. It was developed with the help of 3D simulations to maximize accuraly and versatility. The AutoAdaptive Mode system and the innovative Virtual Sonar software allows you to calculate the width of the circle in the absence of sonar. Thanks to the laser line and the integrated LED illuminator, it facilitates the positioning of the adhesive weight at 6 o'clock.
