SCREWDRIVER IR 2146Q1MAX - 3/4 "

Code: **MUT02ABIA0011**

The 2146Q1MAX impact wrench is the most powerful impact wrench in its class. They have been designed with an innovative pressure gauge that ensures optimized airflow and pressure. These silent screwdrivers help you maximize productivity in a wide range of jobs and tackle whatever comes your way. The peculiarity of this model is that above the rear cover there is an indicator where you can check the air pressure used (yellow is low, green is fine and red is too strong). For example, if you use the screwdriver at too strong a pressure, you will damage it faster.
