

AUTEL > PRODOTTI AUTEL

**ONE SENSOR 433 Mhz & 315 Mhz**

In rubber / gray aluminum

Code: **MTP03XXXX0006**

The Autel One sensor combines both 315MHz + 433MHz frequencies in a single sensor ensuring maximum coverage. The unique patented "PRESS" release design allows easy replacement of the stem freely by hand, without the need for a tool for mounting the sensor head. Built to match or outperform OEM sensors in strength and frequency duration, the MX-Sensors ID can be cloned 100% with no relearning providing the latest vehicle coverage because they update quickly with a programming tool wireless Autel.

ALSO AVAILABLE ONLY THE STEM:

- MTP03XXXX0027 ALUMINUM STEM. BLACK ONE-SENSOR
- MTP03XXXX0028 ALUMINUM STEM. ONE-SENSOR GRAY
- MTP03XXXX0011 STEM 1PZ. RUBBER SENS.MX/ONESE
