Catalogue Beta C45PRO

Code:

The modular workshop furniture C45PRO allows you to create your own work environment according to the space available and the needs of use.

It is a simple and flexible range with predetermined combinations that can be expanded or modified over time.

Alternatively, it is possible to build entirely the customized workstation starting from the worktops available in MDF covered in stainless steel or plywood and completing it with the numerous components and accessories available.

Create your own work environment.

Change the face of your workshop. Choose from pre-assembled solutions or build your workstation from scratch.
