LIFT BRIDGE L25 S

Code: **ASO04XSXX0002**

The L25 S lifting platform has been designed according to the strictest safety and guarantee schemes for the operator's safety. Perfectly symmetrical in the geometry of the structure. It has an innovative mechanical end-of-stroke system that delimits the maximum lifting height, guaranteeing that the load is perfectly horizontal. It has a solid structure and therefore does not need to be anchored to the ground.
